Youngblood mineral cosmetics was born in 1996, created by Pauline Youngblood Soli, while working as a paramedical aesthetician alongside plastic surgeons and dermatologists. It became clear that patients wanted a natural looking, lightweight make-up to help conceal post operative bruising, redness and any imperfections, plus act as a skin treatment. Along came Youngblood – 100% pure, cruelty free, no perfumes, alcohol, talc or petroleum dyes. This mineral make-up will not block pores or cause irritation. Great for all skin types and tone and it's make-up that lasts all day. Her first product created was the loose mineral foundation, which provides excellent coverage and has a soft, luxurious feel and finish. All the products are top quality and cover a wide range of colour and shades. Pauline's values have never changed : a passion for providing the healthiest, highest quality product, while empowering women to look and feel their best.
